T.J.S. ENGINEERING COLLEGE

(AN AUTONOMOUS INSTITUTION)

Approved by AICTE, Affiliated to Anna University, Chennai.

TJS Nagar, Peruvoyal, Kavaraipettai, Chennai-601206.

ACADEMIC REGULATIONS 2026

Bachelor Engineering & Bachelor of Technology

1. Title

These regulations shall be called as 'T.J.S. Engineering College Academic Regulations 2026 (Autonomous) for Undergraduate Programmes'. In short, it is referred to as 'TJSEC-AR-2026-UG'.

2. Scope

2.1. The regulations provided herein shall apply to the students admitted in the Undergraduate B.E./B.Tech. Programmes offered by T.J.S. Engineering College, an Autonomous Institution affiliated to Anna University, Chennai, from the Academic year 2026-2027.

2.2. These regulations are comprehensive in nature and encompass definitions of key terms, salient academic concepts, methods of calculation of various indices, composition and functions of statutory and academic committees, evaluation and assessment procedures, and other related academic processes as approved by the Academic Council of the Institution.

3. Definitions

3.1. '**Institution'** means T.J.S. Engineering College an Autonomous Institution affiliated to 'Anna University, Chennai'.

3.2. **'University'** means 'Anna University, Chennai', to which the Institution is affiliated.

3.3. **'Choice-Based Credit System (CBCS)'** is a flexible system of learning that permits students to

a) learn at their convenient pace
b) choose courses from a wide range of elective courses offered by the departments
c) adopt an inter/multi-disciplinary approach in learning and
d) make the best use of the expertise of available faculty.

3.4. **'Programme'** means Degree Programme (i.e.) B.E./B.Tech Degree Programme

3.5. **'Discipline'** means Branch of B.E./B.Tech. Degree Programme, like Mechanical Engineering, Electrical and Electronics Engineering, etc.,

3.6. **'Semester'** means a term of study consisting of a minimum of 90 working days (including examinations), generally with seven 'CONTACT HOURS' per day. The Semester scheduled between July / August and November / December shall be called 'Odd Semester' (I, III, V, VII), and that scheduled between December / January and April / May, shall be called 'Even semester' (II, IV, VI, VIII).

3.7. **'Course'** refers to a Theory / Laboratory integrated theory / Laboratory subject that is offered in a semester of the Programme.

3.8. **'Contact Hours'** means duration of Lecture, Tutorial, Practical or Project Work, as applicable.

3.9. **'Credit'** means the weightage assigned to a particular course based on the contact hours to teach the prescribed syllabus. One credit is allocated to 15 contact hours for theory course and 30 contact hours for practical course.

3.10. **'Continuous Assessment'** means evaluation of the students' progress and performance in a course during a semester through various activities such as Assignments, Continuous Assessment Tests, Model Examination, Model Practical, Solution to application-oriented problems, Solving of GATE questions, Project, Models, Flipped Class, Seminar, Group Activity, Report Writing, Quizzes, Presentations, Practical Works, Case Studies, Technology enabled services to community, etc. Importantly, the students shall complete all activities, as prescribed in the syllabus of the respective course to get the internal marks.

3.11. **'End Semester Examination'** means an examination conducted for a course at the end of the semester to evaluate the student's overall learning attainments.

3.12. **'Bona Fide Student'** means a student who has been admitted to and is currently pursuing an Undergraduate Programme of the Institution, and whose name appears on the rolls of the Institution.

3.13. **'Head of the Department'** means Head of the Department concerned, offering the programme.

3.14. **'Head of the Institution'** means the Principal of T.J.S. Engineering College.

3.15. **'Disciplinary Committee'** means the committee constituted by the Head of the Institution to oversee and enforce discipline among students of the Institution.

3.16. **'Controller of Examinations (COE)'** means the Officer of the Institution responsible for all activities relating to the conduct, evaluation, and processing of results of examinations of the Institution.

3.17. **'Academic Council'** means the principal academic body of the Institution, comprising the Head of the Institution as Chairperson, Heads of Departments, senior faculty members, external subject experts, and representatives nominated by the University, which is responsible for the maintenance of academic standards, approval of academic regulations, curriculum, evaluation procedures, and all other academic matters of the Institution.

4. Admissions

4.1. Admission to B.E. / B.Tech. Programmes offered by the Institution shall be as per the norms prescribed by the Govt. of Tamil Nadu, as given below.

- Candidates are required to have a pass in the Higher Secondary Course Examination (Academic 10 + 2) Curriculum or its equivalent examination, with Mathematics, Physics and

Chemistry as subjects of study. Other eligibility criteria, such as minimum marks required in each of the above subjects for different categories/communities, number of attempts permitted, and physical fitness, shall be as prescribed by the Govt. of Tamil Nadu from time to time.

4.2. Admission of students directly to the second year (Lateral Entry) of the B.E. / B.Tech. Programme shall be as per the norms prescribed by the Govt. of Tamil Nadu, as given below.

- Candidates who possess a Diploma in Engineering / Technology awarded by the Directorate of Technical Education, Tamil Nadu, or its equivalent, are eligible to apply for Lateral Entry admission to the third semester of the B.E. / B.Tech. Programme. Other eligibility criteria, such as discipline of the Diploma, marks required, number of attempts permitted, and physical fitness, shall be as prescribed by the Govt. of Tamil Nadu from time to time.

(or)

Candidates who possess a Bachelor of Science (B.Sc.) Degree (10+2+3 stream) with Mathematics as a subject at the B.Sc. level are eligible to apply for Lateral Entry admission to the third semester of the B.E. / B.Tech. Programme. Other eligibility criteria, such as marks required, number of attempts permitted, and physical fitness, shall be as prescribed by the Govt. of Tamil Nadu from time to time.

4.3. All students admitted, provisionally or otherwise, to any Programme shall submit Photo Identity proof issued by the State / Central Government, the Original Transfer Certificate from the institution last studied, copies of grade / mark sheets of the qualifying examination, and other relevant documents, at the time of admission or by the last date prescribed by the competent authorities.

4.4. The admission of a student who fails to submit the prescribed documents by the date specified in Clause 4.3, or fails to meet other stipulated requirement(s), shall be cancelled by the University. The Institution shall also cancel the admission of a student at a later time, if the student is found to be ineligible or unfit at the time of admission, or is found to have furnished false information / certificates, or to have suppressed relevant information, while seeking admission to the Programme.

5. Programme Structure

5.1. Curriculum

Every programme has a specific structure, known as the 'Curriculum', which prescribes all the details of courses for undergoing the programme and sets out the sequence semester wise.

5.2. Programme Duration

(i) The duration of the Programme shall be FOUR years (Eight Semesters) for a student admitted to the Programme with qualifications as prescribed in Clause 4.1 of these regulations. The student shall successfully complete all the requirements as per the curriculum and regulations of the Programme within the above-said duration of 'FOUR' years.

(ii) The duration of the Programme shall be THREE years (Six Semesters) for a student admitted directly to the second year (Lateral Entry) with qualifications as prescribed in Clause 4.2 of these regulations. The student shall successfully complete all the requirements as per the curriculum and regulations of the Programme within the above-said duration of 'THREE' years.

(iii) The period mentioned in Clauses 5.2(i) and 5.2(ii) above shall be extended by **'**ONE' more year for a student who is permitted to avail an authorised break of study, or who opts to drop courses, as per these regulations.

(iv) Programme Completion means that a student shall have undergone all the courses prescribed in the respective curriculum and become eligible to appear for the end semester examination of all such courses within the period specified in Clauses 5.2(i), (ii) and (iii).

(v) After Programme completion, if any arrear course(s) remain, a student shall be permitted to successfully complete the same within 'SEVEN' years (for students admitted under Clause 4.1) or 'SIX' years (for students admitted under Clause 4.2). This maximum duration for successful completion shall be reckoned from the commencement of the first semester of the Programme.

(vi) In case a student is prevented from appearing for the end semester examination in all courses of a semester due to shortage of attendance, the period of such prevention shall be treated as a break in the Programme. In such cases, the total duration for completing the Programme, including all such prevention periods, shall not exceed the above-said 'SEVEN' years (for students admitted under Clause 4.1) or 'SIX' years (for students admitted under Clause 4.2).

5.3. Course Categories

Every B.E. / B.Tech. Programme shall have a curriculum consisting of theory and practical courses, with prescribed syllabi, categorised as follows:

(i) **Basic Sciences (BS)** — includes courses such as Mathematics, Physics and Chemistry.

(ii) **Humanities and Social Sciences (HS)** — includes courses such as Language, Management, Heritage, Life Skills, Entrepreneurship, Sustainability and Physical Education.

(iii) **Engineering Sciences (ES)** — includes foundational engineering courses common to multiple disciplines, such as Engineering Graphics, Basic Electrical and Electronics Engineering, Basic Electrical and Instrumentation Engineering, Basic Civil and Mechanical Engineering, Fundamentals of Programming, Makerspace, Reengineering and Innovation, and other similar courses as prescribed in the curriculum of the respective branch.

(iv) **Professional Core (PC)** — includes courses that form the core / fundamental subjects of the respective branch of study, essential for building the foundational and advanced technical knowledge required for the student's specialisation, as prescribed in the curriculum of the respective branch.

(v) **Professional Elective (PE)** — includes advanced or specialised courses related to the respective branch of engineering, offered to enable students to gain in-depth knowledge in specific areas of interest within their discipline, as prescribed in the curriculum.

(vi) **Open Elective (OE)** — includes courses offered across branches, enabling students to acquire knowledge in disciplines other than their own, and to broaden their academic exposure beyond the core areas of their specialisation, as prescribed in the curriculum.

(vii) **Employability Enhancement Course (EEC)** — includes courses such as Mini Project, Engineering Design Project. Internship / In-plant Training, Project Work, Seminar, Comprehensive Viva-Voce, and other similar activities aimed at enhancing the practical skills, industry readiness, and employability of students, as prescribed in the curriculum.

(viii) **Mandatory Course (MC)** — includes non-credit courses that are compulsory for all students, such as courses on Introduction to Women and Gender Studies, Elements of Literature, Disaster Risk Reduction and Management, State Nation Building, History of Science and Technology in India, and other similar courses, which a student must complete satisfactorily, but which are not considered for the calculation of Grade Point Average (GPA) / Cumulative Grade Point Average (CGPA), as prescribed in the curriculum.

(ix) **'Value Added Courses (VAC)'** are courses not prescribed in the respective curriculum, but offered to students by the Institution to provide additional value to the Programme by enhancing their knowledge, skills, and competencies — such as certification courses, skill development programmes, and courses conducted in collaboration with industry / professional bodies, which may be completed online or offline, as prescribed by the Institution from time to time. Completion of such

course(s) is not mandatory for successful completion of the Programme.

(x) Audit Course (AC) — means a course, not prescribed as mandatory in the respective curriculum, which a student may voluntarily register for and attend, with the prior permission of the Institution, purely for the purpose of gaining additional knowledge. No credit is earned and no grade is awarded for an Audit Course, and it shall not be considered for the calculation of Grade Point Average (GPA) / Cumulative Grade Point Average (CGPA). However, subject to fulfilment of the prescribed attendance requirement, the fact of having completed such course(s) may be recorded in the student's academic record. Completion of Audit Course(s) is not mandatory for successful completion of the Programme.

(xi) Off Campus Course(s) are the courses that can be undergone by the student, offered by other Institutions / Online Platforms like SWAYAM / NPTEL.

5.4. Medium of Instruction

Medium of Instruction for all B.E. / B.Tech. Programmes shall be **'English'**.

5.5. Assignment of Credits

(i) Each course shall be assigned credits with respect to the contact hours, as given in Table 1.

Table 1 – Credits for Contact Hour(s)

Contact Hour	Credits
1 Lecture Hour	1
1 Tutorial Hour	1
1 Laboratory Hour	#

Note: Credit for Laboratory Courses shall be as prescribed in the respective curriculum.

(ii) ONE credit shall be assigned to Industrial Training / Internship for every 'TWO WEEKS' duration.

5.6. Credit Distribution

The total credits of the B.E. / B.Tech. Programme shall be distributed among the various course categories as given in Table 2.

Table 2. Credit Distribution

Abbreviation	Category	Credit Distribution
BS	Basic Sciences	12-16
HS	Humanities and Social Sciences	24-30
ES	Engineering Sciences	18-24
PC	Professional Core	56-66
PE	Professional Elective	18-21
OE	Open Elective	09-12
EE	Employability Enhancement	12-18
MC	Mandatory Course	Nil
VAC	Value Added Course	Nil
AC	Audit Course	Nil

5.7. Course Code

Each course offered under the Undergraduate B.E. / B.Tech. Programmes is assigned a Course Code consisting of seven alphanumeric digits, structured as follows:

Digits 1 and 2 are numerals, representing the Regulation Year.

Digits 3 and 4 are alphabets, corresponding to the Department offering the course.

Digit 5 is a numeral, corresponding to the course category, as follows:

1 – Theory (T)

2 – Lab Integrated with Theory (LIT)

3 – Laboratory Course (L)

Digits 6 and 7 are numerals, in the range 01 to 99, unique for each course offered under a department.

Code	Department
EN	English
TA	Tamil
MA	Mathematics
PH	Physics
CY	Chemistry
AD	Artificial Intelligence and Data Science
AL	Computer Science and Engineering (Artificial Intelligence and Machine Learning)
CS	Computer Science and Engineering
EC	Electronics and Communication Engineering
EE	Electrical and Electronics Engineering
IT	Information Technology
ME	Mechanical Engineering
MG	Management
MX	Mandatory Course
SD	Skill Development
CD	Capstone Design
IN	Internship
PW	Project Work

Example: 26MA101 – Matrices and Calculus

26 – indicates Regulations 2026

MA – indicates the Department offering the course - Mathematics

1 – indicates that the course is a Theory Course

01 – the unique code assigned to the course 'Matrices and Calculus' under the Mathematics Department.

6. Induction Programme

Immediately upon admission, all students shall be required to attend a 'TWO-WEEK' Induction Programme designed to ease their entry into the Institution.

The programme shall feature talks by distinguished speakers, guided visits to the various Departments, and ice-breaking activities organised within each Department / branch.

This Induction Programme shall be overseen by the Head of the Institution and is intended to give newly admitted students a chance to engage with, and become part of, the wider student community of the Institution.

Broadly, the Induction Programme seeks to:

(i) Welcome incoming students and help them settle into their new surroundings.
(ii) Acquaint students with campus life, including institutional activities, fests, and other events.
(iii) Offer early academic guidance to students.
(iv) Reinforce awareness of, and compliance with, the anti-ragging rules.

Ultimately, the Induction Programme is intended to create a welcoming atmosphere that eases the transition of incoming students into the Higher Education system.

7. Academic Calendar

The dates of all academic activities — including course registration, the first and last days of classes, examinations, supplementary examinations, and vacations — shall be published in the Academic Calendar for every semester. The Academic Calendar for each semester shall be prepared by the Institution and made available on the Institution's website.

8. Mentoring and Statutory Support for Students:

8.1. Faculty Mentor:

To ensure personalised academic support, each Department of the Institution shall implement a Faculty Mentor system, under which a member of the faculty is entrusted with the overall well-being of a group of students, typically numbering between 20 and 30. Faculty Mentors are expected to extend guidance and support on academic matters, and, where required, on personal concerns as well. Students should approach their assigned Faculty Mentor for advice on academic performance, course planning, and related matters across semesters. Without limiting the scope of this role, the responsibilities of a Faculty Mentor shall broadly include the following:

(i) Introducing students to the functioning of the Institution's academic framework and sharing relevant guidance, particularly during the early stages of their Programme.

(ii) Helping students evaluate their prior coursework alongside the offerings for the forthcoming semester, thereby supporting informed course selection.

(iii) Acting as a point of contact between students and course instructors on academic concerns such as learning difficulties, language-related challenges, and other comparable issues.

(iv) Monitoring each student's academic progress at a minimum of once per semester.

(v) Recognising instances of declining academic performance, engaging with the concerned student, and recommending suitable corrective or support measures.

(vi) Keeping students informed about scholarship opportunities, placement activities, and avenues for co-curricular and extracurricular participation.

(vii) Liaising with other academic bodies of the Institution wherever necessary.

8.2. Student Grievance Redressal Committee

To address concerns raised by students, the Institution shall constitute a **Student Grievance Redressal Committee**, headed by the Head of the Institution. The composition of this Committee shall be as follows:

(i) **Chairperson** — Head of the Institution.

(ii) **Faculty Representatives** — Three faculty members holding the rank of Professor or Associate Professor, drawn from different Departments, at least one of whom shall be a woman faculty member.

(iii) **Student Representatives** — Two students, preferably from the third or final year, of whom at least one shall be a female student.

(iv) **Member Secretary** — A faculty member nominated by the Head of the Institution, responsible for coordinating the functioning of the Committee.

Students may approach this Committee for redressal of grievances, whether academic or non-academic in nature. The Committee shall be constituted by the Head of the Institution, and the faculty representatives and Member Secretary shall each hold office for a period of **one academic year**.

8.3. Guidance and Counselling Cell

The Institution shall maintain a dedicated 'Guidance and Counselling Cell', constituted by the Head of the Institution. This Cell shall consist of professional psychological counsellors, faculty representatives (including the concerned Faculty Mentor), and student representatives. The Cell is intended to extend support and advice to students on a wide range of academic and personal matters.

8.4. Prevention of Sexual Harassment (POSH) Cell:

In compliance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, and the UGC (Prevention, Prohibition and Redressal of Sexual Harassment of Women Employees and Students in Higher Educational Institutions) Regulations, 2015, the Institution shall constitute an Internal Complaints Committee (ICC), commonly referred to as the 'POSH Cell', to address complaints of sexual harassment involving students, faculty, and staff of the Institution. The Committee shall be constituted by the Head of the Institution and shall comprise the following members:

- **(i)** Presiding Officer — A senior woman employee of the Institution.
- **(ii)** Internal Members — At least two faculty members committed to the cause of women, or having experience in social work, or with legal knowledge.
- **(iii)** External Member — One member from a non-governmental organisation (NGO) or association committed to the cause of women, or a person familiar with issues relating to sexual harassment.
- **(iv)** Student Representative — One student representative, preferably a woman student, nominated to represent student interests in matters brought before the Committee.

At least half of the total members of the Committee shall be women. The Committee shall be responsible for receiving, inquiring into, and recommending appropriate action on complaints of sexual harassment, in accordance with the provisions of the POSH Act, 2013, the UGC Regulations, 2015, and the rules framed thereunder. Details of the Cell's activities and contact information shall be made available on the Institution's website.

8.5. SC/ST Cell

The Institution shall maintain a dedicated 'SC / ST Cell' to protect and promote the rights and privileges of students belonging to the Scheduled Caste (SC) and Scheduled Tribe (ST) categories. This Cell shall also keep students informed about the various scholarships and fellowships available to them, and encourage eligible students to apply for the relevant schemes. Details of the Cell's activities and contact information shall be made available on the Institution's website.

8.6. Institute Academic Affairs Committee

The Institute Academic Affairs Committee (IAAC) shall function under the Chairpersonship of the Head of the Institution, and shall be

constituted by the Head of the Institution. The composition of this mandatory Committee shall be as follows:

- **(i)** Chairperson — Head of the Institution.
- **(ii)** Faculty Representatives — Heads of all Departments of the Institution.
- **(iii)** Student Representatives — Two students nominated from each year of study, at least one of whom shall be a female student.
- **(iv)** Member Secretary — A faculty member holding the rank of Professor or Associate Professor, nominated by the Head of the Institution.

The IAAC shall convene its first meeting within 'SEVEN' working days of the commencement of the academic session. A second meeting shall follow the first assessment period, and a third meeting shall be held at least 'TEN' working days prior to the last date of the academic session.

The principal responsibilities entrusted to the IAAC shall include:

- **(i)** Resolving difficulties faced by students in classrooms and laboratories.
- **(ii)** Evaluating student academic performance following each assessment test, and identifying strategies to enhance outcomes.
- **(iii)** Preparing and maintaining minutes of every meeting.
- **(iv)** Circulating meeting minutes to faculty members, students, and other relevant stakeholders.
- **(v)** Upholding the highest standards of academic integrity and transparency in its functioning.
- **(vi)** Identifying areas where students require academic support, and recommending appropriate remedial measures.

9. Class Timings:

Regular classes shall ordinarily be conducted between 09:00 AM and 03:15 PM, with necessary recesses and a lunch break. For students pursuing Honors / Minor Programmes, additional classes shall be arranged during the morning or evening hours, as found suitable by the concerned Course Instructor. Regular classes shall be held on five days a week, from Monday to Friday. Course Instructors may also schedule supplementary classes, examinations, or academic activities, subject to the prior approval of the Head of the Institution.

10. Registration of Courses

10.1. Every student admitted to the Institution is required to register before the commencement of each semester, in order to undergo the courses prescribed for that semester as per the Academic Calendar.

Registration is a critical procedural requirement of the academic system, as it ensures that the student's name appears on the official rolls.

10.2. Registration of courses shall be carried out only through the web-based registration system, within the dates prescribed in the Academic Calendar. Once submitted, the registration shall be treated as auto-approved; students are therefore advised to complete the registration process with due care. The responsibility for timely completion of registration rests with the student, who shall approach the Head of the Department / Head of the Institution concerned for any clarifications required.

10.3. A student shall not be permitted to re-register for any course that has already been successfully completed, for any reason whatsoever.

10.4. Students shall register for courses in a semester subject to a maximum credit limit of 36 credits, inclusive of courses registered under Honours / Minor Degree Programmes and courses registered on account of shortage of attendance.

10.5. Students may add or drop courses through the online registration system, within the period specified for this purpose in the Academic Calendar. Every add / drop request shall be processed solely by the Head of the Institution concerned, after taking into account the relevant prerequisites and other applicable conditions, if any. Any addition or dropping of courses shall be communicated to the Controller of Examinations within 10 working days from the commencement of the academic session. Under no circumstances shall an add / drop request be entertained beyond 10 working days from the commencement of the academic session.

The following rules shall govern the addition / dropping of courses:

(i) A student may advance a course, with the prior approval of the Head of the Institution, only before the commencement of the relevant semester. Such advanced courses shall be duly registered by the student concerned.

(ii) A course may be dropped within 7 working days from the commencement of the academic session; dropping of a course shall not be permitted under any circumstances thereafter.

10.6. Professional Elective courses shall be listed in the Curriculum in Table format as verticals. A student may choose all the Professional Elective Courses either from a single vertical or a combination of courses drawn from more than one vertical in a semester. However, students, irrespective of enrolling for additional courses for B.E./B.Tech (Honours), are not permitted to choose more than one

course from a row. Students are permitted to enroll in more than one elective course from the same vertical in a semester. In the subsequent semesters, students are permitted to enroll one more course in a row, provided he/she has cleared earlier courses of the same row. A minimum of 15 students shall be required to register for a Professional Elective or Open Elective course for it to be offered; however, this minimum registration requirement shall not apply to courses offered under the B.E. / B.Tech. (Honours) and B.E. / B.Tech. (Minor Degree) Programmes.

10.7. Students may register for additional courses, over and above those prescribed in the respective curriculum, under the PC / PE / OE categories of any Programme, with the prior permission of the Head of the Institution. The credits earned through such additional courses shall be reflected in the grade sheet but shall not be considered for the computation of CGPA.

10.8. Value Added Course

Students shall have the option of registering for Value Added Course(s) (VAC), and the credits earned upon successful completion of such course(s) shall be reflected in the grade sheet. However, credits so earned, if any, shall not be considered for the computation of CGPA. Students shall also be permitted to take VAC(s) offered by other Departments, with the permission of the Head of the Institution concerned. The syllabus content, timetable, and faculty proposed for the conduct of VAC(s) shall be placed before the Departmental Committee (DC) for its recommendation. The DC shall be constituted by the Head of the Institution, and shall consist of:

a) Head of the Department concerned.
b) A Professor / Associate Professor from the parent Department.
c) A Professor / Associate Professor from an allied Department.
d) An Assistant Professor from the parent Department.

The recommendations of the DC shall be submitted to the Controller of Examinations within 30 working days from the commencement of a semester, for offering the VAC(s) in the subsequent academic semester. The approved Value Added Courses shall be notified on the Institution's website, and may also be offered by other Departments of the Institution. Post-facto approval shall not be granted under any circumstances.

The result(s) of VAC(s) shall be printed in the grade sheet only upon successful completion of the course. However, the credits earned shall not be considered for the computation of CGPA.

10.9. Off Campus Course(s)

(i) Student shall have the option of registering courses in physical / online / hybrid mode with other institutes or online platforms in a semester (except VIII semester), with prior permission from the Controller of the Examinations of the Institution. The Controller of Examinations shall notify and obtain such proposals from the interested students, within ONE month from the commencement of a semester, for undergoing the OC course(s) in the subsequent semester. Repetition of courses already registered / completed shall not be permitted. Post-facto permissions shall not be entertained under any circumstances.

(ii) Students shall opt for the Off Campus Course(s) offered by SWAYAM / NPTEL portal or State / Central funded Universities or Institutions, which are in the top 25 positions in the latest 'National Institutional Ranking Framework' (NIRF) ranking.

(iii) The result(s) of Off Campus Courses shall be printed in the grade sheet only upon successful completion of the course. However, the credits earned shall not be considered for the computation of CGPA.

11. Attendance Criteria:

11.1. The students are expected to attend all the classes without fail. Attendance of the student in each course is calculated from

$$Percentage\ of\ Attendance = 100\ x\ \frac{Actual\ Number\ of\ Classes\ Attended}{Total\ number\ of\ Classes\ Conducted}$$

The Institution mandates a minimum overall attendance of 80%. This overall attendance percentage is calculated as

$$Percentage\ of\ Overall\ Attendance = 100\ x\ \frac{Actual\ Number\ of\ Classes\ Attended\ in\ all\ registered\ courses}{Total\ number\ of\ Classes\ Conducted\ in\ all\ registered\ courses}$$

11.2. For medical reasons, if a student is unable to attend classes, a 'Medical Certificate' shall be furnished to the Head of the Institution concerned, within 5 days from the date of reporting back for class work. In the event that a student is unable to secure 80% attendance but has at least 70% attendance, such Medical Certificate shall be considered, with the approval of the Head of the Institution. In such cases, the student shall be permitted to appear in the University End Semester Examinations, if the overall attendance in each registered

course is 70% and above. Under any circumstances, medical certificate(s) submitted after the due date, shall not be accepted.

11.3. A student shall be prevented from appearing in the end semester examination for all courses in a semester, if the overall attendance secured by the student is less than 80%. A student so prevented shall not be permitted to proceed to the next semester. Importantly, such a prevented student shall be permitted to rejoin the programme in the semester of prevention only in the following academic year, and shall undergo all the courses of that semester afresh. If the academic regulations have since been revised, any addition or deletion of course(s) shall be as prescribed by the Controller of Examinations of the Institution, and such a student shall undergo any additional course(s) as may be required for completion of the Programme.

11.4. Students are required to obtain prior approval from the Head of the Institution to attend campus recruitment drives, seminars, conferences, symposiums, hackathons, internships, and co-curricular and extra-curricular activities. Attendance for the above-mentioned activities shall be treated as 'ON-DUTY' only upon such prior approval of the Head of the Institution. Students shall be permitted to avail ON-DUTY for a maximum of 10% of the total working days in a semester.

11.5. The list of students eligible to appear for the end semester examination(s), and those prevented from appearing for the end semester examination(s), shall be published by the Controller of Examinations within THREE working days from the last working day of the respective semester.

11.6. A student, if eligible to appear for the end semester examinations, shall be permitted to withdraw from course(s) for bona fide reason(s), only with the prior approval of the Head of the Institution, and the same shall be intimated to the Controller of Examinations. In cases of medical emergency alone, post-facto approval may be accorded by the Head of the Institution, based on prior intimation received from the student, parent, or guardian. Such a student shall appear for the End Semester Examination of the withdrawn course(s) in the subsequent semester. The course(s) so withdrawn shall not be considered as an appearance for the purpose of classification of the degree. For any course withdrawn by a student in the final semester of the Programme, a supplementary examination shall be conducted within a maximum period of 30 working days from the date of publication of the results.

12. Break of Study

12.1. Students shall be permitted to avail ONE 'Break of Study', for a period of ONE year (two consecutive semesters), during the entire four-year duration of the Programme, for bona fide reasons only (such as hospitalization, accident, or specific illness). However, a Break of

Study shall also be granted for the above-said bona fide reasons, for a period of SIX months (one semester), to students who have already completed up to the seventh semester of the Programme.A student shall apply for Break of Study to the Head of the Institution, through email or letter, which shall, in turn, be forwarded to the Controller of Examinations for further action. Under no circumstances shall a student be permitted to apply for Break of Study retrospectively; further, such requests shall not be accepted after the generation of the 'Prevention List'. The duration of the Programme, as prescribed in Clause 5.2, shall be deemed to include the period of any Break of Study so approved.

12.2. Students who are granted 'Break of Study', shall be allowed to appear for the End Semester Arrear Examinations for backlog courses, if any, during the period of Break of Study.

13. Unauthorised Absence

If a student has not reported officially to the Institution for the entire duration of a semester, without any prior written request (hardcopy or email to the official ID of the Head of the Institution) for 'Break of Study', the Head of the Institution shall send an intimation regarding such unauthorised absence to the Student / Parent / Guardian, through email or registered post.

Having due regard to the welfare of students and the principles of natural justice, the Head of the Institution shall inform the Student / Parent / Guardian of such unauthorised absence a minimum of three times, periodically, during the semester. If the student has still not reported after such three intimations, the Head of the Institution shall forward the list of such student(s) to the Controller of Examinations.

Upon verification of all relevant records, the admission of such student(s) shall be cancelled by the Institution, and this decision shall be communicated to the University and the competent State authority for student admissions, as applicable, for necessary record and further action.

14. Rejoining the Programme

After the end of the approved 'Break of Study' period, a student shall be permitted to rejoin the Programme in the same semester for which the Break of Study was granted. Such student(s) shall rejoin the Programme within TEN working days from the date of commencement of the semester. Under no circumstances shall the period for rejoining be extended.

The Regulations and Curriculum in force for the specific semester, at the time of rejoining, shall be applicable to such student(s). The appearance of the

student (including absence) in the end semester examinations for the courses of that particular semester shall be treated as a 'First Appearance'.

If there has been any change in the Academic Regulations and Curriculum in the interim, the student shall undergo additional course(s), or be exempted from undergoing certain course(s), as recommended by the Controller of Examinations of the Institution. Any addition to, or exemption from, course(s) arising from such a change in regulations shall be communicated to the student within FIFTEEN working days from the date of rejoining.

15. Disciplinary Proceedings

Students facing disciplinary action for any serious offence (for example, ragging, misbehaviour, etc.), shall be subject to a detailed inquiry conducted by the Disciplinary Committee of the Institution, within SEVEN working days from the date of cognizance of such incident(s). The Disciplinary Committee of the Institution shall be constituted by the Head of the Institution, and shall consist of the following members:

- Head of the Institution — Chairperson
- Head of the Department of the student(s) concerned — Member
- Head of another Department — Member
- A Professor / Associate Professor from another Department — Member
- A Professor / Associate Professor (Woman) from another Department — Member
- Faculty Mentor of the student concerned — Member

The representation of the student(s) shall be duly considered at all stages of the enquiry, before imposing any penalty on the student(s).

16. Vacation

There shall be two vacations — Winter and Summer — in an academic year. The duration of both vacations shall be announced in the Academic Calendar of the Institution.

17. Teaching and Evaluation

17.1. Each course shall be conducted by a **Course Instructor'**, who shall have overall responsibility for the successful conduct of the class work. The responsibilities of the Course Instructor shall include the maintenance of attendance and assessment records for the course(s) handled.

17.2. A **'Common Course Committee'** shall be constituted for a course that is handled by more than one Course Instructor, or offered across multiple sections / branches, consisting of all the Course Instructors handling that course, along with the Head of the Department concerned, or a senior faculty member nominated by the Head of the

Department, to ensure uniformity in the syllabus coverage, evaluation pattern, question paper standards, and rubrics for continuous assessment and practical components across all sections.

17.3. The semester-wise performance of a student shall be evaluated through Continuous Assessments and End Semester Examination. The weightage for the Continuous Assessment and the End Semester Examination for different course categories is given in Table 3.

Table 3. Weightage of Continuous Assessment and End Semester Examination across Course Categories

Course Category	Continuous Assessments	End Semester Examination
Theory (T)	40%	60%
Laboratory Integrated with Theory (LIT)	50%	50%
Laboratory (L)	60%	40%
Project Work	60%	40%
Mini Project, Engineering Design Project, Mandatory Course, Value Added Course, Internship, Industrial Training,	100%	NIL

17.4. **For Theory (T) Courses**, evaluation shall be carried out through Continuous Assessment and End Semester Examination. For each Theory course in the respective curriculum, a student's performance shall be evaluated for a maximum of 100 marks, of which Continuous Assessment shall carry a weightage of 40%, and the End Semester Examination shall carry a weightage of 60%. The computation of the Continuous Assessment for Theory Courses is given in Table 4.

The End Semester Examination shall ordinarily be conducted for 100 marks, for a duration of THREE hours. The Total Marks of the course shall be calculated out of 100, with the Internal Marks and the End Semester Examination carrying a weightage of 40% and 60%, respectively.

Table 4. Continuous Assessment Marks for Theory Courses

Component	**Marks**
Continuous Assessment Test I	10
Continuous Assessment Test II	10
Model Examination	40
MCQ Test	20
Activities (Assignments, Seminars, Presentations, Solving of GATE Questions)	20

TOTAL	100

However, for a Theory course carrying ONE credit, the End Semester Examination shall be conducted for a maximum of 50 marks, with a maximum duration of 90 minutes. The marks secured by a student in such a one-credit Theory course shall subsequently be converted into equivalent marks out of 100.

17.5. For **Laboratory Integrated Theory (LIT) Courses**, evaluation shall be carried out through Continuous Assessment and End Semester Examination. For each LIT Course in the respective curriculum, a student's performance shall be evaluated for a maximum of 100 marks, of which Continuous Assessment shall carry a weightage of 50%, and the End Semester Examination shall carry a weightage of 50%
The computation of the Continuous Assessment for LIT Courses is given below.

The Continuous Assessment marks so calculated (out of 100) shall be converted to 50 marks. The End Semester Examination for the Theory Component shall be conducted for 100 marks, for a duration of THREE hours, and shall be converted to 25 marks. The End Semester Practical Examination shall likewise be conducted for 100 marks, for a duration of THREE hours, and shall be converted to 25 marks. The Total Marks for the LIT Course shall be calculated as the sum of the Continuous Assessment, End Semester Theory Examination, and End Semester Practical Examination marks, out of 100, with the Continuous Assessment and the End Semester Examination (Theory + Practical combined) each carrying a weightage of 50%.

Table 5. Continuous Assessment Marks for LIT Courses

Component	Marks
Continuous Assessment Test I (Theory)	10
Continuous Assessment Test II (Theory)	10
Model Examination (Theory)	30
MCQ	10
Completion of Experiments and Evaluation of Laboratory Record	10

Model Practical Examination	30
TOTAL	100

17.6. For **'Laboratory (L) Courses'**, evaluation shall be carried out through Continuous Assessment and End Semester Examination. For each Laboratory Course in the respective curriculum, a student's performance shall be evaluated for a maximum of 100 marks, of which Continuous Assessment shall carry a weightage of 60%, and the End Semester Examination shall carry a weightage of 40%. The computation of the Continuous Assessment for Laboratory Courses is given in Table 6.

Table 6. Continuous Assessment Marks for Laboratory Courses

Component	Marks
Completion of Experiments and Evaluation of Laboratory Record	50
Model Practical Examination	50
TOTAL	100

The End Semester Practical Examination shall be conducted for 100 marks, for a duration of THREE hours. The Total Marks of the course shall be calculated out of 100, with the Internal Marks and the End Semester Examination carrying a weightage of 40% and 60%, respectively.

17.7. For **'Project Work'**, a student, or a group of students not exceeding four, shall work on a topic of interest under the guidance of a faculty member, who shall be designated as the Guide, and shall interact regularly (at least twice a week) with the student / group of students. The dates for reviews, submission of reports, and the viva-voce examination shall be decided by the Department concerned. Evaluation of the Project shall be through Continuous Assessment (comprising three reviews at regular intervals), evaluation of the project report, and the final viva-voce examination. Project reviews shall be conducted by a committee constituted by the Head of the Department concerned, comprising the Guide(s), the Project Coordinator, and one internal subject expert. The break-up of Continuous Assessment Marks is presented in Table 7.

Table 7. Continuous Assessment Marks for Project Work

Component	Marks
Review I	20
Review II	20
Review III	60
TOTAL	100

For the conduct of the viva-voce examination, one internal examiner from the Department concerned, and one external examiner, shall be nominated by the Controller of Examinations. The break-up of marks, for the End Semester Examination is presented in Table 8.

Table 8. End Semester Marks for Project Work

Component	Marks
Project Thesis Evaluation - Guide	20
Project Thesis Evaluation – External Examiner	20
Viva-Voce – Internal Examiner	30
Viva-Voce – External Examiner	30
TOTAL	100

The Total Marks for the Project Work shall be calculated out of 100, with the Internal Marks and the End Semester Examination carrying a weightage of 40% and 60%, respectively.

17.8. For **'Internship cum Project Work',** a student, or a group of students (not exceeding four) who are selected for the internship, shall work on a project in the industry concerned, which shall mandatorily require an Internal Guide and an External Guide. On receipt of the intimation letter / email regarding the internship, the Head of the Department concerned shall nominate a Guide and a Co-Guide (if required), for the smooth progression of the work, and the list of such students' details shall be submitted to the Head of the Institution concerned.

(i) The Internal Guide shall be a faculty member from the Department of the student concerned.

(ii) An External Guide shall be identified by the industry concerned at the time of offering the internship to the students, and the

External Guide shall interact with the Internal Guide at regular intervals for the formulation, monitoring, and completion of the project work. The External Guide shall be a member of the review committee for evaluating the progress of the work and the performance of the student(s). An 'Internship cum Project Work Completion Certificate', jointly certified by the Internal Guide(s) and the External Guide, shall be issued upon successful completion of the 'Internship cum Project Work'.

(iii) Any confidential matters or Intellectual Property Rights concerns relating to the industry concerned shall be discussed by the External Guide, at the beginning of the Internship cum Project Work, with the student(s) and the Internal Guide(s), in order to arrive at the problem definition and formulation of the objective(s) of the Internship cum Project Work.

(iv) For the smooth conduct of the 'Internship cum Project Work', and in the larger academic interest of the students, as well as to maintain the quality of the project work, sufficient information and data shall be provided by the industry concerned to the student / group of students. The Internal Guide shall ensure this at the beginning of, and at regular intervals during, the Internship cum Project Work, for its successful completion.

(v) Students undergoing 'Internship cum Project Work' in industries located within the vicinity of the Institution (60 km from the Institution) shall attend reviews in physical mode. Students undergoing 'Internship cum Project Work' in industries located beyond 60 km from the Institution shall be permitted to attend reviews either in physical or online mode. Importantly, the External Guide shall attend the review, either in online or physical mode.

(vi) Evaluation of 'Internship cum Project Work' shall be as per Clause 17.7.

17.9. For **'Internship / Industrial Training'**, a student shall undergo Internship / Industrial Training for a period as stipulated in the respective curriculum of the Programme. The industry in which the student proposes to undergo the Internship / Industrial Training shall be engaged in Design, Fabrication, Production, Manufacturing, Testing, Research and Development, Services, or other similar activities aligned with the fields related to the Programme. Upon completion of the Internship / Industrial Training, the student shall submit a report describing the observations made, skills acquired, and usefulness of the training, along with the attendance certificate issued by the industry concerned. Evaluation shall be carried out by a committee comprising three faculty members constituted by the Head of the Department concerned, with one of the faculty members nominated as

the coordinator. Marks shall be awarded to students based on the evaluation, with a weightage of 40% for report evaluation, 30% for presentation, and 30% for the viva-voce examination.

17.10. **'Mini-Project / Engineering Design Project'** an academic activity forming part of the curriculum, requires a student, or a group of students, to undertake theoretical or experimental work for a deeper understanding of the concepts concerned. A review committee shall be constituted by the Head of the Department concerned, comprising three faculty members, namely, an internal expert, a coordinator, and the supervisor concerned, for conducting periodical reviews. The performance of the student(s) shall be assessed by this committee through Continuous Assessment, comprising three reviews. The weightage shall be 25% each for the first two reviews, and 50% for the third review, as given in Table 9.

Table 9. Continuous Assessment Marks for Mini-Project / Engineering Design Project

Review I	Review II	REVIEW III	
		REPORT	VIVA VOCE
25	25	30	20

The student(s) shall submit a report in the prescribed format, within the deadline specified by the Head of the Department. The committee shall evaluate the project report submitted by the student(s), with a weightage of 30% (out of the 50% assigned to the third review), and shall conduct a viva-voce examination, with a weightage of 20% (out of the same 50%), during the third review.

17.11. The course **'Life Skills for Engineers'** is offered under the Humanities and Social Sciences (HS) category, with the objective of training students in emotional intelligence, resilience, stress management, communication skills, and similar competencies. The performance of students shall be evaluated solely through Continuous Assessment comprising of Assignments, Seminars, Presentations and other activities as prescribed in the syllabus. The Assessment Marks for the different components of the Assessment shall be as in Table 10.

Table 10. Continuous Assessment Marks for Lif Skills for Engineers

Component	Marks
Assignment	10

Presentation	10
MCQ Test	20
Activities	60
TOTAL	100

No End Semester Examination shall be conducted for this course.

17.12. National Cadet Corps (NCC) / National Sports Organization (NSO) / National Service Scheme (NSS) / Youth Red Cross (YRC)

Participation in one of the four activities — National Cadet Corps (NCC), National Sports Organization (NSO), National Service Scheme (NSS), or Youth Red Cross (YRC) — is a mandatory requirement during the first semester of the Programme. The choice of activity shall be made solely by the student at the time of admission, and no change shall be permitted at a later stage. These activities are normally conducted during off-working hours and weekends, and are designed to build character and sensitise students to social and national development. A camp for each activity shall be conducted during the vacation period. The training period and camp duration shall be decided by the respective unit, from time to time. These activities shall not carry any credits.

In addition to the above mandatory requirement, students shall be permitted to continue participation in NSS / NSO / NCC / YRC in subsequent years, should they wish to pursue it further. Successful completion of such subsequent participation shall be awarded credits, and shall be reflected only in the grade sheet. However, the credits so earned shall not be considered for the computation of CGPA.

17.13. The courses **'Employability Enhancement Skills I to V'** are offered with the objective of making students employable, through training in soft skills, quantitative aptitude, logical reasoning, verbal and non-verbal communication, group discussion techniques, resume building, technical interview preparation, general interview skills (including attending online interviews), personality development, workplace etiquette, and other allied competencies required for campus placements and career readiness.

The performance of students in 'Employability Enhancement Skills I to V' shall be evaluated solely through Continuous Assessment. No End Semester Examination shall be conducted for these courses. The Continuous Assessment shall comprise the components given in

Table 11. Two MCQ Test(s) shall be conducted by the Course Instructor(s) concerned, and the marks shall be recorded accordingly.

Table 11. Continuous Assessment Marks for Employability Enhancement Courses

Component	Marks
MCQ Test I	30
MCQ Test II	30
Activities – Assignments, Seminars, Presentations, Reports	40
TOTAL	100

17.14. Mandatory Courses (MC), shall not carry any credits. The performance of students in Mandatory Courses shall be evaluated solely through Continuous Assessment. No End Semester Examination shall be conducted for these courses. The components for the Continuous Assessment of Mandatory Courses shall be as in Table 12.

Table 12. Continuous Assessment Marks for mandatory Courses

Component	Marks
MCQ Test I	30
MCQ Test II	30
Activities – Assignments, Seminars, Presentations, Reports	40
TOTAL	100

17.15. 'Value Added Course (VAC)' shall not carry any credits. The performance of students in Value Added Course(s) shall be evaluated solely through Continuous Assessment. No End Semester Examination shall be conducted for these courses. The components for the Continuous Assessment of Value Added Courses shall be as in Table 13.

Table 13. Continuous Assessment Marks for Value Added Courses

Component	Marks

MCQ Test I	30
MCQ Test II	30
Activities – Assignments, Seminars, Presentations, Reports	40
TOTAL	100

17.16. Passing Criteria in a Course

A student shall be declared 'PASS' in a course upon satisfying the following conditions:

(i) For Theory, Laboratory Integrated Theory and Laboratory courses, the student shall secure a minimum of 45% of marks in the End Semester Examination, and shall also obtain a minimum of 50% of marks in the aggregate, combining both the Continuous Assessment and the End Semester Examination.

(ii) For Project Work / Internship cum Project Work, the student shall secure a minimum of 45% of marks in the End Semester Examination (comprising Project Report Evaluation and Viva-Voce Examination), and shall also obtain a minimum of 50% of marks in the aggregate, combining both the Continuous Assessment and the End Semester Examination (Project Report Evaluation and Viva-Voce Examination).

(iii) For Internship / Industrial Training, the student shall secure a minimum of 50% of marks in the Continuous Assessment.

(iv) For Mini-Project / Engineering Design Project, the student shall secure a minimum of 50% of marks in the Continuous Assessment, through the three reviews, as given in Clause 17.10.

(v) For the courses Life Skills for Engineers and the courses Employability Enhancement Skills I to V, the student shall secure a minimum of 50% of marks in the Continuous Assessment.

(vi) For Value Added Course(s) and Mandatory Courses the student shall secure a minimum of 50% of marks in the Continuous Assessment.

17.17. Not Satisfying Passing Criteria

(i) A student who has not satisfied the passing conditions, in a Theory, Laboratory Integrated Theory, or Laboratory course, shall be required to reappear in the End Semester Examination of the course concerned, in the subsequent semester(s), until the student secures a pass. In such cases, the Continuous Assessment marks obtained by the student in the first appearance shall be retained, and shall be considered valid for all subsequent attempts, until the student secures a pass in the course concerned.

(ii) A student may apply for a photocopy of the student's semester examination answer paper, in a Theory course or a Theory course with a Laboratory component, within one week from the declaration of results, on payment of the prescribed fee, along with the prescribed application, submitted to the Controller of Examinations through the Head of the Institution. A student may thereafter apply for review of the student's semester examination answer paper, in a Theory course or a Theory course with a Laboratory component, within one week from the issue of the photocopy of the answer paper, on payment of the prescribed fee, along with the prescribed application, submitted to the Controller of Examinations through the Head of the Institution. The Controller of Examinations shall arrange for the review of the answer paper, and the result(s) thereof shall be intimated to the student concerned, through the Head of the Institution.

(iii) If a student fails to secure a pass, even after revaluation, in any course(s) of a semester, the student shall be permitted to write the **Supplementary Arrear Examination(s)** conducted within a period of one month from the publication of results, provided the examination in the course concerned is being conducted during that period. The student shall continue to register and reappear for the examination in the failed course(s), until the student secures a pass therein. Importantly, absentees, and students who have been granted Withdrawal approval for valid reason(s) in any current semester examination, may also be permitted to write the Supplementary Arrear Examination conducted within a period of one month from the publication of results, subject to the validity of the reason furnished by the student, and subject to the recommendation of the Head of the Department concerned, with the approval of the Head of the Institution.

(iv) For Project Work, Internship cum Project Work, Internship / Industrial Training, or Mini Project / Engineering Design Project, a supplementary viva-voce examination shall be conducted within a minimum period of 30 days from the date of publication of results. If the student is unable to successfully complete the course concerned in the supplementary examination, the student shall be required to repeat the course in the ensuing semester.

18. Honours Degree

18.1. Students often possess a particular passion, fascination, or line of interest within a specific field of study, and the 'Honours Degree' option is intended to enable such students to nurture and pursue this interest further. A student shall be awarded the Honours Degree upon successful completion of additional courses, in the 'FIRST APPEARANCE' itself, over and above the courses prescribed in the respective curriculum, commencing from the 'FIFTH' semester onwards.

The additional courses required for the Honours Degree shall be either a 'CAPSTONE DESIGN PROJECT' or 'SIX ELECTIVE COURSES', as opted by the student.

(i) The student shall earn a total of 'EIGHTEEN' credits through the additional courses so opted, and the distribution of such credits shall be as prescribed in the respective curriculum.

(ii) A student admitted under Clause 4.1 of these regulations shall be eligible to opt for the Honours Degree, provided the student has earned a minimum CGPA of 7.0, taking the 'THIRD' and 'FOURTH' semesters together, and has no history of arrears from the first semester onwards.

(iii) A student admitted under Clause 4.2 of these regulations shall be eligible to opt for the Honours Degree, provided the student has earned a minimum CGPA of 7.0, taking the 'THIRD' and 'FOURTH' semesters together, without any backlog arrears in the Third and Fourth semesters.

18.2. Capstone Design Project for Honours Degree

(i) The Capstone Design Project provides students an opportunity to work in a team, to design and develop a product, with a focus on evolving solutions for real-time problems. The scope of the project shall extend from Problem Definition and Specification Formulation within given constraints, to Review of the Design Process and Design Ideation, Human Factors, Market Research, Product and Patent Research, Fabrication Considerations, Safety and Risk Assessment, Liability and Ethics, Environmental and Sustainability Considerations,

Proof-of-Concept Methods, Codes and Standards, and other allied aspects, culminating in the testing of prototype(s).

(ii) A group comprising 4 to 6 students, drawn from a minimum of two Departments and a maximum of three Departments, shall opt for the Capstone Design Project, in 'THREE PHASES', spanning the Fifth to Seventh semesters, in addition to the courses prescribed in the respective curriculum. It shall be mandatory that students from at least 'TWO' Departments form part of the project group, with a minimum of 'TWO' students from each participating Department.

(iii) The students shall identify a Mentor from any one of the participating Departments, and the Head of the Department of the Mentor concerned shall, with the approval of the Head of the Institution, constitute a Project Review Committee (PRC), consisting of the Mentor and one faculty member from the Department(s) of the other students in the group (other than the Mentor's Department).

(iv) During the course of the Capstone Design Project, student groups are encouraged to participate in events such as Hackathons and Industrial Expos, to showcase and pitch their inventions.

(v) Evaluation of the Capstone Design Project shall be carried out through Continuous Assessment, comprising three periodical reviews in each semester by the PRC, and a Viva-Voce Examination at the end of each semester. The Viva-Voce Examination shall be conducted by a panel comprising the Internal Examiners (PRC) and one External Examiner. The weightage for Continuous Assessment shall be 60%, and for Project Report Evaluation together with the Viva-Voce Examination, 40%.

(vi) Every student in the group shall secure a minimum of 45% of marks in the Project Report Evaluation and Viva-Voce Examination, and shall also obtain a minimum of 50% of the total marks, combining the Continuous Assessment and the Project Report Evaluation and Viva-Voce Examination, in order to be declared 'PASS' in the particular phase of the Capstone Design Project. Upon successful completion of a phase, the students shall be permitted to proceed to the next phase. In the event that any student in the group is unable to secure a 'PASS' as prescribed above, such student shall discontinue from the

Capstone Design Project, and shall not be permitted to associate with the Capstone Design Project thereafter.

(vii) Upon earning 'EIGHTEEN' credits through the successful completion of the Capstone Design Project (CDP), 'HONOURS' shall be conferred, along with a 'Certificate of Appreciation', on students who secure a CGPA of 8.50 or higher, without any history of arrears. Where a student in the group, upon successful completion of the Capstone Design Project, secures a CGPA of less than 8.50, the 'HONOURS' Degree shall not be conferred on such student; however, the result of the Capstone Design Project shall be reflected in the Grade Sheet, and a 'Certificate of Appreciation' shall be issued to such student.

18.3. Elective Courses for Honours Degree

(i) A student may opt for the 'Honours' Degree by undergoing 'SIX' additional Elective Courses from the Professional Elective Verticals, offered from the Fifth to Seventh semester, as listed in the respective curriculum. These courses shall be distinct from the Professional Elective Courses I to VI, chosen as part of the curriculum. The student shall earn 'EIGHTEEN' additional credits through such course work, related to the major discipline of study. The evaluation and 'PASSING' requirement for these courses shall be as prescribed in Clauses 17.4 and 17.5, for Theory and Laboratory Integrated Theory courses, respectively.

(ii) Upon successful completion of the six Elective Courses, 'HONOURS' shall be conferred on students who secure a CGPA of 8.50 or higher, without any history of arrears. Where a student, upon successful completion of the 'SIX' courses, secures a CGPA of less than 8.50, the 'HONOURS' Degree shall not be conferred on such student.

(iii) Where a student decides to opt out of the Honours Degree, after successful completion of a certain number of course work(s), such course(s) shall be treated as equivalent to Professional Elective (PE) Course(s). In such case, the student shall be permitted to drop an equal number of PE Course(s).

(iv) Where a student successfully completes a greater number of PE Course(s) than the number mandatorily prescribed in the curriculum, the course(s) with the higher grade(s) shall be considered for the computation of CGPA. The remaining

course(s) shall be printed on the grade sheet only, and the grade(s) obtained therein shall not be considered for the computation of CGPA.

19. Minor Degree

(i) Students often possess a passion to acquire knowledge outside the discipline of their own Programme, which enables them to become more versatile. A student shall be awarded the Minor Degree upon successful completion of additional courses, over and above the courses prescribed in the respective curriculum, commencing from the 'FIFTH' semester onwards.

(ii) The student shall earn 'EIGHTEEN' additional credits, and the distribution of such credits shall be as prescribed in the respective curriculum.

(iii) A student admitted under Clause 4.1 of these regulations shall be eligible to opt for the Minor Degree, provided the student has earned a minimum CGPA of 7.0, taking the 'THIRD' and 'FOURTH' semesters together, and has no history of arrears from the first semester onwards.

(iv) A student admitted under Clause 4.2 of these regulations shall be eligible to opt for the Minor Degree, provided the student has earned a minimum CGPA of 7.0, taking the 'THIRD' and 'FOURTH' semesters together, without any backlog arrears in the Third and Fourth semesters.

(v) A student shall register for the Minor Degree, from the Fifth semester onwards, by registering for the basket of courses prescribed as Minor Electives–Verticals in the curriculum of the UG Programme offered in the Curriculum. All six courses shall be registered from a particular vertical. A student may also choose six courses from a Professional Vertical offered by a Department other than the parent Department of the student concerned. All six courses shall be registered from a particular vertical. The evaluation and 'PASSING' requirement for these courses shall be as prescribed in Clauses 17.4 and 17.5, for Theory and Laboratory Integrated Theory courses, respectively.

(vi) In order to be awarded the Minor Degree, a student shall successfully complete the registered courses and earn 'EIGHTEEN' additional credits. The grades obtained in this basket of courses shall also be considered for the computation of CGPA, together with the courses of the parent Programme (mainstream).

(vii) Where a student decides to opt out of the Minor Degree, after successful completion of a certain number of course(s), such course(s) may be treated as equivalent to Open Elective (OE) Course(s). In such case, the student shall be permitted to drop an equal number of OE Course(s).

(viii) Where a student successfully completes a greater number of OE Course(s) than the number prescribed in the curriculum, the course(s) with the higher grade(s) shall be considered for the computation of CGPA. The remaining course(s) shall be printed on the grade sheet only, and the grade(s) obtained therein shall not be considered for the computation of CGPA.

(ix) A student shall be permitted to opt for either the 'Honours Degree' or the 'Minor Degree', but not both, during the course of the Programme.

20. Grading of Courses

20.1. The grades and corresponding grade points shall be as in Table 14.

Table 14. Grading of Courses

Grade	Description	Grade Points
S	**Outstanding** performance with respect to course learning objectives; exhibits original and creative thinking, and demonstrates the ability to analyze critically and synthesize information	10
A+	**Excellent** performance with respect to course learning objectives and creative thinking	9
A	**Very Good** achievement with respect to course learning objectives	8
B+	**Good** achievement with respect to course learning objectives	7
B	**Above Average** achievement with respect to course learning objectives	6.5
C+	**Average** achievement with respect to course learning objectives	6
C	**Satisfactory** achievement	5
U	**Re-appearance**	0
SA	**Shortage of Attendance**	0
WC	**Withdrawal of Course**	0

20.2. Absolute Grading system shall be followed for all Courses. The range of marks for corresponding grades is presented in Table 15.

Table 15. Range of Marks for Grades

S	A+	A	B+	B	C+	C	U
91-100	81-90	71-80	66-70	61-65	56-60	50-55	<50

21. Calculation of Grade Point Average (GPA) and Cumulative Grade Point Average (CGPA)

(i) Two parameters, Grade Point Average (GPA) and Cumulative Grade Point Average (CGPA) shall be used to evaluate the academic performance of the student.

(ii) The GPA is the weighted average of the grade points obtained in all the courses registered by the student during the semester. For example, if a student passes five courses (Theory / Laboratory / Project / Seminar etc.) in a semester with credits C1, C2, C3, C4 and C5 and the students' grade points in these courses are g1, g2, g3, g4 and g5 respectively, then GPA of the student is calculated as:

$$GPA = \frac{(C1 * g1) + (C2 * g2) + (C3 * g3) + (C4 * g4) = (C5 * g5)}{(C1 + C2 + C3 + C4 + C5)}$$

(iii) At the end of each semester, the student is given with a semester wise grade sheet. This is a consolidated list of courses registered and grades obtained in that particular semester along with the appropriate GPA calculation.

(iv) The CGPA indicates the overall academic performance of a student and is computed to two decimal places in the same manner as the GPA, except that all the courses registered up to and including the latest completed semester. Grades obtained after successful completion of additional courses, that are not mandatory for minimum requirement for award of degree, shall not be considered for computation of CGPA. However, results of these courses will be printed only in the grade sheet.

(v) For the students who have successfully completed the requirements of Honours Degree, grades obtained in the additional courses / Capstone Design Project shall be taken into account for the computation of CGPA.

(vi) For the students who have successfully completed the requirements of Minor Degree, grades obtained in these additional courses shall be taken into account for the computation of CGPA.

(vii) If the student is absent for the registered course in the End Semester Examination(s) or Viva-Voce Examinations or absent

for the assessments in case of courses evaluated only through continuous assessments, this absence shall be considered as an appearance for the purpose of classification of degree.

(viii) If a student opts to drop PE Courses(s) as per the Clause 10.5, this appearance in the particular PE Course shall be considered as an appearance for the purpose of classification of degree.

(ix) After successful completion of the courses as required for the award of degree, as per the curriculum, a consolidated grade sheet shall be printed and issued to all the students.

(x) The percentage of marks shall be printed in the consolidated grade sheet from the CGPA earned using,

Percentage of Marks = CGPA * 10

22. Award of Degree

22.1. A student is deemed to have completed the requirements for the award of degree, if the student has:

(i) Successfully completed all courses as per the respective curriculum of the discipline satisfying the minimum credit requirement and other academic requirements for the programme.

(ii) No pending disciplinary action against him / her.

22.2. The award of Degree shall be approved by the 'Syndicate' of Anna University.

22.3. A student, who fulfils the following criteria shall be shall be declared to have successfully completed the degree programme with **'Honours'** and classified under **'First Class with Distinction'.**

(i) Should have passed the examination of all the courses prescribed in curriculum of the respective programme in the 'FIRST APPEARANCE' itself, within the prescribed duration as per Clause 5.2 of this Regulations.
